

PENTOFLEX GOLD

Breakthrough Formula for the Treatment of Joints

A new treatment developed by Taylormade Horse Supplies Int'l Ltd for Equine and Camel arthritis it is providing amazing results for Horses and Camels suffering from acute arthritic conditions. PENTOFLEX GOLD is not the first I.V arthritic treatment but many of the other products previously available have remained unchanged now for decades and as this new technology in medicine provides more effective forms of this essential joint component, it goes without saying that the only option is PENTOFLEX GOLD.

Benefits:

- A chondroprotectant that inhibits the enzymes responsible for cartilage destruction
- Promotes cartilage and synovial fluid synthesis and has anti-inflammatory properties
- Intravenous (IV) only targeting a specific area
- To improve joint function and re growth
- Assist with mobility and relieve pain associated with degenerative or traumatic joint arthritis
- Recommended for the support of healthy joints
- May be used in combination with other anti-inflammatory treatments
